Tennis World Flocking To The Hoosier Capital For Tournament

FAMOUS PLAYERS FROM FAR AND WIDE TO MATCH WITS WITH CHAMPIONSHIP ASPIRANTS WHEN BIG FREE FOR ALL BLAZES FORTH MONDAY.

ANNUAL BALL THURSDAY NIGHT

By TED CABLE

Entries and reservations from all points of the compass foreshadow an exciting and thrilling week of taut competition and pleasurable social contacts at Indianapolis from August 18 to 23.

The climax of the tennis events will be reached when the American Tennis Association opens its annual tournament on August 18th with the assurance that all the sectional stars will be on hand among both women and men, nothing can stop their show from being the keenest and most successful one to date.

For the benefit of those who have never attended the "Nationals" before, a sketchy picture of some of its outstanding characters and players might be interest.

EDGAR BROWN, the aspect of a Hindu priest, courteous, ironic, a cool deliberate player who knows percentage, possesses speed and accuracy and an uncanny power of anticipation. A worthy champion.

JAMES STOCKS, California, a courageous bull-dog type with a abundant speed and power and a near-mastery of strokes. The current season should have given a valuable measure of experience and control to his grim fighting power.

TED, THOMPSON, Washington, D. C., unquestionably the most colorful player in our group. Dazzling speed and control, his volleys from mid-court would seem impossible. A champion at heart, who fights most brilliantly when on his back. A delightful personality is probably his greatest liability.

ERYL SAITCH, New York, another natural athlete, with a volcanic temperament which in no wise hurts his splendid game. His volleys and service closely resemble Thompson's style, a fighting heart backed by physical stamina.

CONRAD LIMJOCO, Chicago, in appearance not rugged enough but in fact he's all there. On the court he typifies the poetry of motion. Fore-hand drives and service of lightning swiftness and an all-round equipment. His nifty draw-backs are a bit of temperament which savors of self-consciousness a brilliant performer who preposes all gallery.

GRAHAM, Cleveland, an all-round player who has risen with startling speed to a national contender. His peculiar habit is to upset players of higher rating with a fundamentally sound game and consistent stroking.

McGRIFF & DOWNING, Virginia, how hard it is to think of them separately, as a doubles team, they have long held the spot light by virtue of their sparkling play and their most conspicuous exemplification of sportsmanship, courtesy and etiquette. While their tennis games are always of championship calibre, theirs shall always be a greater contribution in the realm

BALL CLUBS PLAY LIVELY GAMES LAST SUNDAY.

Indianapolis Cubs, New Harlem Club, Bald Eagles And Hoggerville None Matched Wits At Penny Park.

Some picked baseball clubs matched wits against each other last Sunday in good games cleverly executed at the Pennsylvania Park.

The game between the Indianapolis Cubs and New Harlem Club resulted in a score of 15 to 11 in favor of the New Harlem team.

The Bald Eagles Vs the Hoggerville Nine chalked up a 4 to 1 result score with the Bald Eagles as winners.

Finch Ed. McCanley of the New Harlem Club featured at the bat with home runs, while thrilling plays were made by players on both sides throughout the games. These games are being played by fast semi-professional clubs, a fast line of baseball is always assured.

Many good and exciting games are yet to be played by these crack teams, which are determined to outplay each other at every game.

HEADS HARLEM BRANCH SCHOOL OF AVIATION

Clement I. Clarke, New York Monoplane Inventor, Now Teacher of the Modern Art of Flying.

NEW YORK, Aug. 14.—Great interest is being manifested in the recent changes which have been made in the management of the Harlem Branch of the American Aviation School, which to our knowledge, is the only white school of aviation in the country, which guarantees to Negroes a complete course in aviation, in all its branches.

With a view to increase the efficiency of the service of the school to students, and prospective students from the group, the management of the American Aviation School have placed Mr. Clement I. Clarke, inventor of the Clarke Ornithoptical Monoplane, a machine which is designed to revolutionize the art of flying; and flaps its wings like the birds in charge of the Harlem Branch of the school.

We are reliably informed that in addition to the instruction which is being given at the school here in New York, plans are under way for a correspondence course, which will be greatly appreciated by those who are far away, enabling them to take a great part of the lessons, in their respective localities until they are able to reach the school.

This action on the part of the American Aviation School is a portent of good tidings to Negroes who are interested in the science of aviation which seems destined to outshine most of the present day occupations of man for remuneration, adventure, and research.

Leaders of the Negro Race on every hand are endeavoring to direct the attention of the Negro to this wonderful field, which is but just tapped, and which offers a wide scope for the expression of the energies and resourcefulness of the Negro. Wide awake Negro young men everywhere are turning their eyes to aviation, for besides being one of the highest paid occupations in the world, it offers more thrills and adventures than any other profession, yet known to man.

FORKINS NEW SHOW TO BREAK THE RECORDS

Stage Production Rated At More Than Splendid Box Office Attraction.

NEW YORK, Aug. 14.—(A. N. T.)—The name of Marty Forkins is more familiar to those behind the footlights than it is to those in front of those same lights, yet when the aforementioned Mr. Forkins takes a notion to produce a colored show, he knows what it is all about, even if it is his first venture as a producer.

So when he got hold of a suitable vehicle, he very promptly grabbed off Bill, "Bojangles," Robinson and Adelaide Hall. That was on the first step. But can you find anyone in Harlem or in these colored United States of America who doesn't know that Bojangles is the greatest "tap-dancer" on the stage today, regardless of color?

And where will you find a per-

Attorney Robert Lee Brokenburr and Mrs. Gertrude Hill are on the program as the special speakers of the evening.

BOUNCING BABY BOY IS BORN TO NORTH END COUPLE.

Mr. and Mrs. Earnest Kirk Proud Parents of New Nine And A Half Pound Addition To Family.

A bouncing baby boy was born Sunday afternoon to Mr. and Mrs. Earnest Kirk in Highland Place.

When seen Monday night, Mr. Kirk expressed himself to friends to the effect that he is the proud est man in the world over the new comer, which tipped the scales at eleven and a half pounds.

One friend chided Mr. Kirk with the remark that it is to be hoped for the baby's future benefit that it looks like its mother instead of daddy.

WINS COFFEE SLOGAN PRIZE

Mrs. Lydia Harris, Springfield, Ohio "Y. W." Secretary Awarded \$25.00 In Big Contest For Creating the Best Name For A Food Product.

NEW YORK, Aug. 14th.—The prize for the name an advertising slogan for C. M. A. Coffee has been awarded to Mrs. Lydia Harris, Executive Secretary of the Y. W. C. A., Springfield, Ohio, according to an announcement from the office of the National Negro Business League.

The name finally selected by the judges was "C. M. A. Coffee" and Mrs. Harris' Slogan "Come Make A Cup" can be attractively printed on the can to carry both the name and slogan combined.

Twenty-eight other persons suggested the name C. M. A. Coffee, so the \$25 prize for the name will be divided among them. The full prize of \$25 for the slogan will go to Mrs. Harris and will be presented during the annual convention of the National Negro Business League which meets in Detroit, Michigan, Aug. 20, 21, and 22nd.

More than three-hundred names and slogans were submitted. The judges of the C. M. A. Coffee contest were: Mr. H. M. Foster, former grocery Editor, The Journal of Commerce; Mrs. Roscoe C. Bruce, Assistant Manager, Paul Lawrence Dunbar Apartments; Mr. E. C. Lutzar, Grocery buyer, Biddle Purchasing Company; Mr. J. Lester Cassiday, Sales Manager, Danemiller Coffee Company; Miss Eva D. Bowles, National Administrator, Colored Y. W. C. A., Work.

son who doesn't know that Adelaide scored heavily for Mr. Lew Leslie of "Blackbirds" fame, singing as only Adelaide Hall can sing that heart-touching number, "I Must Have That Man." That number with another number from the same show ran neck to neck for popularity among colored folk and each was recognized as the "colored folks national anthem."

But that wasn't all, according to Mr. Forkins' ambitious program. Bearing in mind that his show has a real box office which the play was adapted, other characters were needed. A prim donna who could sing and act, dramatic stars who know that it is all about besides the regular run of players seen in a show.

Selecting this cast was a problem for the producer knew just what he wanted. With all of the talent among the colored theatrical people, there was a dearth of the particular types Forkins needed. After a long and diligent search, he secured just what he wanted and quietly signed them up to contracts.

ETIQUETTE FOR THE GALLERY AT THE TENNIS TOURNAMENT

When you are a spectator at a tennis match, you are one of the "gallery" which has assembled to see good tennis played. There are well defined (although unwritten) laws of conduct for the gallery, which are as binding upon them as the laws of tennis are upon the players and officials. Only by your co-operation in observing these unwritten laws can the perfect playing conditions be secured which make for the successful conduct of a tournament and your enjoyment of the matches you witness.

A tennis ball in play moves very fast, and other moving objects in its range of vision distract a player by making it hard for him to follow the ball's line of flight. Therefore, the ladies particularly, should be careful to keep parasols, and fans in the background.

The committee strives to make the gallery comfortable and give to the contestants playing conditions as nearly perfect as possible. The committee's task of satisfying the players and pleasing the gallery is a hard one at best, and any co-operation that both can accord should be freely given.

It is with this in mind that the following suggestions are made: A moving background is the most disturbing condition that a player can experience; it makes a perfect play of the ball next to impossible. For this reason you should not move about when opposite the end of a court, except when it is absolutely necessary to do so.

If you are in a stand that faces more than one court, do not move from one match to the other while the play is on; it is fatal to good play. If you want to match the other match, wait until a set is finished before moving.

Do not applaud or give vocal expression of your feelings while a rally is on, but wait until the point has been played out and then applaud all you wish.

Do not applaud errors; by that is meant that your approval should be given to good strokes only. Do not applaud a shot that goes out of court or into the net, even if it gives a point to the player you want to win.

Do not coach the players. Never call "Good," "Out," "Let it go," "Hit it," etc., because thereby you are influencing a player's judgment which is a factor in the outcome of the match. Coaching interferes with the fair playing of match and may become extremely disconcerting by causing doubt as to whether some particular call came from a spectator or was an official's decision.

Never talk to an Umpire, Linesman or player while the match is in progress.

If you do not agree with the decision as they are given, withhold your disapproval; remember that the Linesman and Umpires are in a better position to judge the play than you are and that the committee has selected the most competent men available for these duties.

Do not throw a stray ball into the court while play is on; wait until a stroke is finished and then The fans and those that have succession of parties and dances well entertained by he relentlessly been eliminated are certain to be arranged by the social committee. There follows a resume:

Sunday-9 Reception and musical tea at Y. W. C. A.

Monday—Card party and cabaret at the Rainbow Palm Garden.

Tuesday—Sport dance at Trinity Hall.

Wednesday—

roll it on. Refrain from talking loudly while a match is on, as a player hears you and frequently takes it as a call from a Linesman and does not play a good ball.

Under no circumstances walk or stand so near a court that you obstruct a contestant; this is inexcusable.

Do not walk or stand on the playing surface of a court before or after a match, as the heels of your shoes make holes in the surface that cause the ball to take bad bounds when a match is played.

Just before a match, do not try to renew an old acquaintanceship or express your wishes for victory to a player. Leave him alone; he has enough on his mind at that time. See him after the match; he has more time then and you will find him more cordial.

If you have to bring a dog with you, see that he watches the match from the side lines. All players are fond of dogs—after the match. Know your neighbors at a tennis match before you criticize player—friends and relatives frequently attend.

The request, "Please do not smoke," is made by the committee in their endeavor to get you to help them obey the laws of the Fire Department that generally apply to stands built of wood.

Bear in mind that tennis is an amateur sport, played for its own sake and not for profit. Most tournaments are run at a loss. Neither the players nor officials receive a cent for their services. The matches give pleasure to the players and your attitude toward these contests should always be governed by this consideration.

Read and know the rules; it will add to your enjoyment of the matches.

And last, do what you can to help the committee, for they are working for your pleasure.

BRICKS HALTS BASEBALL GAME

Ninth Inning Interrupted When A Group of Whites Attack Members of Colored Team.

NEW YORK CITY, Aug. 14.—A. N. P.—A baseball game between the Flushing Orioles and the Flushing Eagles, a white team, was terminated here in the ninth inning when a group of whites attacked the members of the Oriole team.

The Orioles were trailing as they came to the bat in the ninth inning by a score of 17 to 21. The first batter had just stepped up to the plate when three automobiles drove up loaded with whites. Without any warning whatever, the new arrivals began hurling bricks at the Negro players.

Pandemonium reigned as players of both teams sought cover. Two of the Negro players were injured by the bricks, and the assailants escaped in their automobiles. The injured men were Fred Ebel and Ernest Woods. Both were sent to the hospital.

CONRADO LIMJOCO IS AGAIN OPEN GRASS TOURNAMENT CHAMPION

Smiling Philippino Wins Singles Championship Of The National Open Law Tennis For Second Consecutive Time.

Playing Stronger Observers Think

CHICAGO, Ill., Aug. 14.—(A. N. P.)—Conrado Limjoco, the smiling racqueteer from the Philippines, won the singles championship of the National Open Law Tennis Tournament, for the second successive time Sunday by defeating Wilbur Clark 6-1, 6-2, 6-0, before a fashionable crowd of one thousand male and female tennis enthusiasts.

The tournament was conducted on special courts provided in Washington Park through the co-operation of members of the South Park Commissioners with Edgar Brown holder of the national singles championship of the American Tennis Association.

Not only did Limjoco repeat his feat of last year by winning the tournament singles, but he again defeated Edgar Brown in a challenge match that followed the contest against Clark. Brown was defeated in straight sets also, 6-3, 8-6, 6-2. The margin of Limjoco's superiority was shown in his service, which Brown seldom broke thru and in his baseline play. He brought the fans to their feet several times by achieving what seemed miraculous returns.

His double victory over Brown and Clark revives conjecture as to what will happen if he enters the tournament of the American Tennis Association to be held in Indianapolis next week. Last year Limjoco beat Brown here, but at the national championships on clay courts in the east, the Filipino was beaten in the quarter-finals, without meeting Brown, and Brown won the championship.

It was the feeling that Limjoco is playing a stronger game this year and that the possibility of his being victor in Indianapolis, if he enters the meet, is greatly increased.

The week's play in Washington park was a social, as well as a sport event. Under the leadership of Mrs. Edith Sampson, lawyer, writer, and society matron, and a group of hostesses chosen from the four hundred, society made the stands around the court a daily rendezvous for the display of new creations and the exchange of pleasantries and things not so pleasant.

Miss Lula Porter won the women's singles, defeating Miss Lillian Hines, 3-6, 6-1, 6-1.

Miss Lula Porter and Miss Bernice Benson, white, won the women's doubles from Mrs. Dorothy Ewell and Mrs. Florentine Stallworth, 6-2, 6-2.

Leonard Poole beat Marion Adams for the junior singles title 6-3, 6-0.

TOLAN DEFEATS ANCIENT ENEMY

Little Wonder Sprinter Triumphs Over His Up And Down Rival George Simpson In Two Races.

DETROIT, MICH., Aug. 14.—(A. N. P.)—Eddie Tolan, the University of Michigan's little wonder sprinter, further scrambled the dope as to who is the King of Speed Saturday when he defeated George Simpson, his up-and-down rival, in two special races which were features of the annual police department field day exercises.

In both the 100-meter and the 220 yard dash, Tolan, holder of the official world's record for the 100-yard event, came from behind to defeat the elongated sprinter from Ohio State. Tolan's time in the 100 meter dash was 10.5 seconds just one-tenth of a second slower than the world's record which he holds jointly with Charles Padock; he negotiated the two-hundred in 20.9 seconds, three-tenths of a second over the world mark.

Included with Simpson among those beaten were Cy Leland of Texas Christian, Claude Bracey of Rice Institute, Texas, and Jack Elder, Notre Dame, constituting almost the pick of the country's speed merchants, outside Wykoff and Meier.

Tolan's mid-season form, which has enabled him to wipe away the stain of defeats suffered in the spring from the legs of Simpson, promises plenty for the dopsters to work on as the International Track and Field Meet in Chicago, Aug. 23rd, draws near. Having only an outside chance to get in the meet, despite his claim to the record, Tolan now looms as the possible mainstay of Uncle Sam's dash men when they compete against the British.

The fight between Tolan and Percy Williams of Canada in the 100-meter run promises plenty of thrills. Tolan has equalled the world record of 10.4 seconds three times. Last Saturday in a special meet in Toronto the Canadian marvel was credited with breaking the record, being timed in 10.3 seconds.

Rumor has it that Lee will enter the ring Thursday night fixed in his determination to banish his foe. On the other hand Godfrey is said to be smiling at the thought of being whipped by Lee, who the Pennsylvanian regards as a plaything as far as the boxing gloves are concerned.

The big fight event at the downtown hall is calculated by its management to be a powerful drawing card.

THEATERS ARE CRITICIZED BY WRITER

Failure of Audiences To Support Colored Stars Deplored In Large Weekly Paper.

NEW YORK, Aug. 14.—(By A. E. White for The A. N. P.)—A writer in a large weekly paper last week deplored the fact that colored audiences fail to support colored stars, showing little respect for their theatrical leaders.

All of which may be true, but did he ever stop to think how little the colored theatrical profession honors itself? Last Wednesday night, your correspondent attended a midnight show at a local theatre and was seated in the second row, extreme left. After a long-drawn out poor half-talking and half-silent picture, the revue got under way. There were such excellent persons in the cast as Swan and Lee, two of the most clever comedians on the stage; Amanda Randolph; Arlie Cain; Thomas Moseley and Alma Smith. It was an excellent bill, good enough in itself, had not performers in the audience been called to the stage to do specialties. Beginning at 12:30 the show ran four hours!

But all during the presentation of the revue, there was one character in the audience, sitting in the first seat of the front row, just in front of your correspondent, who not only made himself a nuisance but was obnoxious in the extreme. This young man has had some success as an eccentric drummer and won a modicum of praise when he played at the Palace Theatre. This has evidently gone to his head, for he felt that he had the undeniable right to make himself seen and heard at all times during the performance.

His companion was equally as bad if not worse, trying to outdo the first young man in everything possible. While the theatre reserves the right to object to disturbers, it seems that an actor of all people would know how to behave when he is on the wrong side of the footlights.

This was particularly true during the inferences on the stage to effeminate men. Here is a part overworked which would be well left out. During the show, Willie Bryant, an excellent comedian if he ever gets wise to himself, a splendid dancer who teamed with Duke Miller, has made quite a reputation on the Public Circuit, pulls this old line, too often, apparently enjoying the delineation of such characters. It is of little help to the show and wouldn't be missed were it omitted.

These faults are so glaring that even the most tolerant persons in the audience notice them and quickly tire of them. But the gentleman who writes the story on the attitude of the audiences toward stars, should write something on the proper etiquette of actors when attending another performance.

BRILLIANT CEREMONIES TO MARK A. B. C.'S FIRST NIGHT GAME

Big Parade To Precede Novel Event Saturday Night At Washington Park

TO PLAY LOUISVILLE BLACK CAPS

By CLARENCE SCOTT
The novelty of night baseball is added to the thrill of expectation in the announcement that Jewel's A. B. C.'s will swap swats once more this season with that fast powerful troupe of pill chasers, who hail from the land of "good wine, fast horses and beautiful women."

The loyal and faithful will have the chance they missed last fourth of July to watch our boys exhibit their wares under 75,000,000 candle power of electric light at Washington Park next Saturday, Aug. 16th, 8 P. M., against the pride of Kentucky, the Champion Louisville Black Caps.

The staging of this fray is a tribute to the indomitable courage and determination of the managers and owners of the Indianapolis team. The expense involved is very great, but the fan is at no disadvantage in the matter of admission price which remains the same; 25c, 50c, and 75 cents.

Preceding the game a parade will march through the colored sections of the city, starting at 6 P. M., and proceeding to the Ball Park. A Band Concert by 25 pieces will be given between 7 and 8 at the park.

Louisville faps have become so uproarious over their beloved champions that an excursion will be run here Saturday morning, Aug. 16th and to return as late as 11:45 P. M. Many hundreds will motor and the management says there will be plenty free parking space for everybody.

Edward J. Butler, publicity manager for the A. B. C.'s and prominent local advertising expert advises local fans who wish box seats to make their reservations now. Demands for seats by the visitors have already greatly exceeded expectations.

No attraction staged so far this year has the prominence of so much as this game has to offer to the lovers of good baseball fans. Here's your chance to enjoy the novelty of night baseball and a good game. Hurry! Hurry! Get your tickets now!!!

THE MARION LYNCHING

Lynching of two youth by a mob of cowardly whites in the very heart of the city of Marion Thursday night of last week was as definitely brutal as it was viciously barbarous.

With one stroke of the pen, so to speak, the fair State of Indiana was submerged in the slush of shame, robbed of its good name as a fit place in which to live and literally raped of its enviable reputation as a commonwealth of law abiding citizens and rigid law enforcement.

We positively refuse to believe that Indiana with its hard earned and substantial brilliant traditions will be allowed to remain in the mire of disgrace to which it was treacherously dragged by alleged malfeasance on the part of contemptibly unfaithful guardians of the law.

The savage perpetrators of the ghastly crime enacted with a boldness that was as hellishly despotic as it was absolutely brutal in scope, must if the respectable status of Hoosierdom is to be reestablished, be fearlessly smoked out and prosecuted to the fullest extent of the law. Indiana must continue to be a commonwealth in which its citizens, black or white can live in unquestioned security and without fear of mob rule and its damnable consequences. Common decency expects it; progressive civilization is useless without it and maintenance of the majesty of law and order depends upon it. It would be unreasonable to expect more and utterly destructive to the interest and welfare of bonafide Americans to demand less.

Jacob C. Campbell, sheriff of Grant County, is being accused of having aided and abetted the mob that lynched the defenseless prisoners on the lawn of the court house at Marion.

Public sentiment charges him with having failed to lift a single straw in defense of the constitutional rights of Smith and Shipp.

Suspected of having been in sympathy with the mob in its lawless quest for blood Campbell must be made to prove his innocence. If found guilty of a conspiracy to make it possible for the mob to murder prisoners in his keeping, little letter protection to which they were entitled, Sheriff Campbell will have transgressed a specific law of the State which says:

Whenever any person has been arrested and confined in jail before trial, says the law of Indiana, "and there is, in the opinion of the sheriff of such county, danger that the accused may be injured or killed by the violence of a mob," the judge of the circuit court of such county—or, in his absence, the clerk of the court—"shall give a written order to the sheriff of such county to remove the accused to a safe place of confinement, and such sheriff shall at once cause such prisoner to be removed to the jail of the county nearest having a sufficient jail and proper provision for protecting the accused or, if he deem it necessary, to nearest State prison or reformatory for the temporary safekeeping and protection of such prisoner."

Sheriff Campbell admits receiving a telephone call from a colored lady "telling me there was going to be an effort to lynch these colored boys and I took what precautions I could." It is now known that he did not take the precaution of removing the prisoners to some other jail, prison or reformatory for safe keeping.

It is significant to note too, that the mob did not act at the Marion jail until hours after the telephone warning had been received by the Sheriff.

The law says that any number of persons assembled for any unlawful purpose and intending to injure any person by violence and without authority of law, shall be regarded as a mob and any act of violence on the part of such mob, if it results in the death of any person, shall constitute the crime of lynching.

As will be seen the law is clear on the subject and if the sheriff at Marion is guilty of the crime with which he is being charged by public sentiment, he should be impeached and made to suffer the full penalty of the law.

SCHOOL CONGESTION

That the public school system of Indianapolis is short of the number of school building required to accommodate the school population has become to be quite from recent developments.

Parents are complaining about their children having to be taught in basements and portables which are regarded as unfit for the purpose, and they are right.

A state of congestion exists at school 40, which, to say the least is admittedly dangerous to the health and lives of the pupils. A circumstance that is as unfortunate as it is entirely unnecessary and should be corrected without delay.

School No. 40, according to the findings of public spirited investigators is a veritable fire trap in its present state.

The portables, which are playing a large part in the matter of solving the vexatious problem of over-crowded state of things in the colored schools are objectionable from several stand-points. A fact which is responsible for the popular condemnation to which they are being subjected.

Citizens are rightly displeased over the fact that Colored children are singled out for portables and basement class rooms, while white pupils are supplied with comfortable housing conditions the year round.

There is not a particle of justice in such an unequal system, which we think should not be allowed to exist.

What is needed and needed badly is a new school building for Colored pupils. The quicker the school board authorities takes the necessary action to bring about the better it will be for all concern.

We are confident that a demand, if made on the board for the purpose of putting an end to the regrettable condition of things in the Colored schools would be a step in the logical direction.

It would be a needless injustice to the pupils as well as the school administration we think to allow conditions to go on in their far too objectionable state.

The matter should be looked into and adjusted NOW.

Our Contemporaries Say

BETTER DAYS ARE HERE

Judge Earl Camp of Dublin, Georgia, who presided at the trial in Atlanta of T. L. Martin, one of seven white men accused of killing Dennis Hubert, a Morehouse College student, said in sentencing Martin:

"It is only the degenerate type of citizen that will promote racial prejudice. There are degenerate Negroes and degenerate whites, but we are determined that they shall not interfere with the orderly processes of our courts."

For a long time Southern courts have seen to it that colored offenders have not obstructed the "orderly processes of our courts." That this courageous jurist, backed by the expressed support of the best elements of both races, should take occasion to signify determination to have equal and exact justice administered, regardless of the color of the principals involved in the case, is another augury of a better day that is dawning in the Southland.

It is not difficult to recollect instances where the same charges, involving a Negro man and a white woman, as were made during the trial of one of Hubert's murderers, would have won quick acquittal for the white man accused of killing a Negro. That the inevitable alibis and defenses did not bind the white jury and judge to their manifest duty is a creditable item in the history of a state whose treatment of its most important minority group has mainly been anything but commendable heretofore.

The significance of this particular trial and its results, as well as the importance of the South itself of seeing that justice weighs only the valid evidence, has not escaped the white press. Witness of the fact is in an editorial in the Macon (Ga.) Telegraph, in which it was declared: "The white brute who endeavors to administer his own justice is as dangerous and as undesirable as the Negro brute who tries to make his own law. Both of them transcend the laws of society, beyond which no happiness and no peace lie."

GRANT COUNTY'S LYNCHING

As the result of the lynching of two Negroes in Marion Thursday night, Grant county, Howard's neighbor on the east, losses caste as a law-abiding community.

Viewed from any angle, the occurrence is deplorable. True, the two men had committed crimes for which their lives should have been forfeited, but that step should have been taken through the processes provided by law. They should have been executed in obedience to a judicial order, following a trial. They should not have been murdered by a mob.

Race prejudice doubtless had much to do with the mad impulse of the mob, and with the shocking cruelty with which it carried its vengeful purpose into effect. The Marion mob exhibited all the savage hatred that is displayed at race lynchings in the South. It was such a flareback to primitive brutality and blood-lust as one would not expect to find in a community like Grant county, long admired for its orderliness and enlightenment and its adherence to the prudent policy of permitting the law to take its course.

Whether Grant county's official circles did all they should have done in the way of precautions may be open to question. Press reports state that there were mutterings and murmurings as early as Thursday morning, when the negroes were captured and the character of their crime revealed. Should this not served as a warning to the sheriff and prompted him secretly to remove his prisoners to some other city for safe keeping? It does seem that official circles could not have been utterly oblivious clear up to the moment of the mob's arrival at the jail that there was danger of human passions getting out of hand.

Its orgie of excitement and violence over, Grant county, it is said, is already beginning to cool off and consider the mistake it has made. Grant has been a proud country and Marion a proud city. Both have done much to justify their pride, is it unbelievable, therefore, that even in the handling of as hideous crimes as rape and murder they want Indiana to emulate Alabama and Arkansas.

KOKOMO, (IND.) TRIBUNE.

CRUISING AROUND
By LEE JAY MARTIN

AND NOW IT IS I-N-D-I-A-N-A-GEORGIA.

The Marion Leader-Tribune, newspaper of Marion, says in effect: Let's forget it and move on. Condemns the lack of law enforcement, but says nothing of enforcing the law against the lynchers. Sounds like to me the Leader-Tribune knew such was going to happen.

The Marion Chronicle, The Indianapolis Star, The Indianapolis News and The Indianapolis Times, all attempt to justify the action of the mob, the latter two, however, asked that the lynchers be brought to justice, the Times being a little more specific in its demand.

Lax verdicts, and delayed court proceedings, may have given the youthful slayers courage to commit the horrible crime, and the mob to know that they had a good chance in escaping conviction, but you could almost safely bet your last dollar, had all the participants of that hideous road tragedy, been all of one race, or the victims, the darker race, it would have been just another murder for "bumping" Marion.

THE WHOLE TRUTH WILL PROBABLY NEVER BE KNOWN, BUT IT HAS BEEN FAIRLY WELL ESTABLISHED THAT THE TWO YOUNG MEN LYNCHED WERE THE SLAYERS OF DEETER. WE HOPE THE MOB HAS NOT MADE A DOUBLE MISTAKE, OF TAKING THE LAW INTO THEIR HANDS, THEN LYNCHING THE INNOCENT.

ALL FIRST DEGREE MURDERERS SHOULD BE SHOT AT SUNRISE, BUT IT SHOULD BE DONE LEGALLY. THE MOB SPIRIT IS DANGEROUS IN ANY COUNTY, STATE OR COUNTRY, AND ON SEVERAL OCCASIONS IT HAS BEEN PROVEN THAT A MOB IS LIABLE TO MOB ANYBODY ONE IT GETS STARTED.

The fact that out of 28 lynchings in the state, 10 of the victims were white, and that all the mobbers were white, tempts the bitterness of the cup.

I FEEL KEENLY THE BLOT ON INDIANA'S NAME, IT AFFECTS ME MORE THAN THE LYNCHING ITSELF. LONG HAVE I BEEN POINTING IN HORROR TO SOME OF THE SOUTHERN STATES, NOW THEY CAN POINT THE SAME THING BACK AT ME, AND MY DEAR OLD INDIANA.

WOULD NOT TAKE MUCH TO MAKE ME BELIEVE, THAT SOME OF THOSE SOUTHERNERS CAME UP HERE AND DID THE JOB FOR SPITE.

There is no doubt that the action of Sheriff Campbell did prevent the further loss of life, he had the personal right to think that he was doing Marion a great service, to prove it, he should resign his office, plead guilty to the charge of negligence and accept the penalty attached.

Otherwise we will be compelled to think that to Sheriff Campbell, the long standing good name of Indiana, County, the fair name of Indiana, the glorious name of our country, the oath of office and the laws of our beloved commonwealth, is not worth the snap of a pistol.

While we as a whole cannot and will not accept the blame for the crime committed by the two youths as reported, but we, and all other citizens must admit that far too many of our youths are traveling far away from the main highway of righteousness, in their endeavor to live without tolling, to show off above their means, disrespecting mature and correct advice, in their ignorant misconception of life and liberty.

Bed Time Stories

THE FAIRY QUEEN'S STORY

This was the story the Fairy Queen told before her banquet the other evening:
"An old lady had a little cabin home just off these woods. Her only companion was a cat. The cat was black, but two pairs were white, and the old lady thought they were very wonderful."

"Now and again the old lady had to go into the village to buy food. Sometimes the cat would follow, wailing a little jingling bell, for the old lady wanted to be sure that the cat had lots to eat, but that he would never get a bird."

"That was why she had him wear the collar with the little bell. The bell warned the birds he was coming, so they could get away. He could be heard coming along by the sound of the tinkling bell."

"But this time, when the old lady went into the village the cat was sleepy and sat on the porch in the sunshine."

"Will you come, pussy?" she asked. But the pussy blinked his eyes thought to say, "I am sleepy." So she went off.

"When she came back to her horror that the cottage had been burned down. Some one had left a match lighted in the woods, and a fire had started which had spread. But even though the house had burned down the cat sat in the house trying to say, 'I am sorry, but at least I am here to welcome you.' And the old lady hugged her cat and said:

"You are always glad to welcome me, and with you here I do not feel so badly about the house."

"But," said the Fairy Queen, "I used my magic wand, and in three minutes and four seconds and two quarter-seconds the house was up again—and the old lady had both her home and her cat."

"That was a real fairy tale," the Fairy Queen said. "It was about make-believe characters for a make-believe story, but that makes it a real fairy tale, eh?" And then they all enjoyed the Fairy Queen's fine banquet.

Voice of the People

WANTS PORTABLE SCHOOL HOUSES ABOLISHED FOREVER

When it comes to portable school houses it seems that school No. 87 at 24th and Paris Ave., is getting more than its share. The Parent-Teacher Association of this school has for the past two years asked the School Board for a better and larger building, and grounds so that the school might take care of all the children in this fast-growing community. The answer has always been portables and now with the more added it means that it will take from the children the already too small playground.

It is our duty to make good citizens of our children but is not everybody concerned handicapped by having to put up with crowded conditions, poor ventilation and light saying nothing of deplorable sanitary conditions. With so many on foot to beautify our city, let us stop for a moment and consider a movement that will abolish Portable School houses forever.

EDNA HAMPTON
President Parent Teacher Association—School No. 87.

To the Editor of The Indianapolis Recorder.

I have been deeply moved to learn of the recent lynching of two Colored youths at Marion, Indiana. I can hardly believe that my native State would tolerate such barbarous actions as this.

Personally, I do not believe that either young Shipp or Smith were guilty of the crime mentioned; and I would appreciate any effort on your part to start an investigation immediately.

GUY T. HAWKINS.

To the Indianapolis Recorder:

Your article on the School No. 11 situation in Indianapolis last week was very good as far as it went but it did not touch upon some of the main points. Of course it is unfortunate that so many Colored children have to go to school in portables. One of the main reasons, however, that School No. 11 should be turned over to Colored children is because of the fact that for the past year or two it has not been more than half full of white children and much valuable school room space is therefore going to waste. If you investigate you will find that although there are about 10 rooms in School No. 11 there were not more than enough children in it last year to fill 5 rooms. If you estimate, according to the Indianapolis standard of 42 per room.

The same thing is practically true of School No. 36 at the corner of 28th St., and Capitol Avenue. Both of these schools are on the border of Colored School Districts where the population is rapidly changing from white to Colored. If you would ascertain from the school office the number of children enrolled in these schools last year and then count the number of classrooms in them you would find that they have much vacant space, while all of the colored schools are crowded and many have to use portables and in a few instances Colored children were going to school last year only half day.

The big complaint is against white, people retaining these schools although they are almost depleted of white children while Colored children are being overcrowded in their schools with inadequate classroom space and facilities. The few white children if necessary could be hauled by bus to some other white schools just like some Colored children are now being hauled long distances in busses to Colored schools.

Black and Tan Minstrel To Be Repeated August 22nd.

Mrs. O. Martin, director of the renown Black and Tan Minstrel announces that the show will be repeated Friday, August 22nd, at the Walker Theatre. This show won high approval and genuine praise on its premier appearance May 29th. The production, while primarily a minstrel show, in many respects resembles a high class musical review. There will be ensemble dancing by four groups of chorus girls. Black and Tan beauties will feature a ladies opening chorus of sixty-five voices.

The famous Apache dance which by the way is a scream, will be a special number, the feature song of which is "My Man."

There are scores of other delightful stunts which we guarantee will make the evening well spent to those who attend.

Tell Your Troubles To FANNY LOU

DEAR FANNY LOU:
I am the mother of two little girls, both of whom are in high school and I did not work and slave every day, I could not hold soul and body to Gov't. In inspection work and makes good in inspection work and makes about \$35.00 each and every week, but I do not get it. He doesn't even pay rent. I hate to drag it to the court on account of my girls.

WORRIED.

MY DEAR FRIEND:
You are simply trying to deceive the public, making them believe that all's well, when in fact the worry and work, the strain may kill you. Wouldn't a little court scene and a straightened out husband be better than your killing yourself and leaving your two daughters all alone. I would advise you to lay aside some of this false pride and create a sound living condition in your home.

FANNY LOU.

mean while, threats were being made to burn the bodies of Shipp and Smith.

\$289 Appropriated
The three fire companies of the city refused to turn on water with which to help fight off the lynchers for fear the latter would destroy the fire wagons and chop the hose.

Two-hundred and eighty-nine dollars has been appropriated by the Grant County Treasurer to repair the damage done to the jail by the mob.

On entering the jail the mob got its hands on the wrong man. The latter made this fact quickly known when the men started out with him.

To save himself the horrified prisoner gave the mob the information as to the cell in which Shipp was to be found. Grabbing the two boys the mob made two demonstrations around town.

Troops Arrived
The arrival of the troopers was the signal for much high feeling by the mob.

When it became known to the officers of the Militia a dead line was thrown around the home of the dead boys.

Quiet was effectively restored to Marion, when with their machine guns set the Indiana National Guard was ordered to shoot.

That all the twenty identified killers were from Marion and all were from Grant County was learned from Prosecutor Harvey F. Hardin.

The statement from the Prosecutor nullified earlier reports to the effect that the members of the mob were from the neighboring town of Fairmont. Fairmont was the home of Claude Deeter, 23, who Shipp and Smith are alleged to have shot and killed.

Name of Grand Jury
The names obtained will be used when the Grant County grand jury convenes September to consider evidence which may bring prosecutions of the offenders under Indiana's lynching statute.

STORMY A. U. K. SESESSION ENDS IN HARMONY

Earnest Patilla, St. Louis Business Man Elected Grand Master At 23rd Annual Meeting At Dayton, Ohio.

Elluna Kelley, Is Indiana State Grand Queen

By DAVID C. VENERABLE
The dove of peace made a transitory visit to the 23rd Annual Session of the National Grand Council of the Ancient United Knights and Daughters of Africa, as it ended in Dayton, Ohio last week. And its visit was highly welcomed, for the order had experienced the stormiest session in the history of its existence. There were certain internal situations of a nuddy complexion which had to be cleared up, and after this was done, peaceful sailing was experienced.

New Head Elected
This session marked the going out of an old administration headed by Ben. H. Mosby of Chicago, and the advent of a New one headed by Earnest Patilla of St. Louis. Mr. Patilla, who is a successful business man of Mo., has had wide experience in executive capacity in the order, having served as deputy Grand Master under the late William Herbert Fields. And there is assurance that under his leadership and careful guidance the "A. U. K. and D. of A." will rightfully regain its lofty position among the Orders of this country.

Woman Secretary-Treasurer
Miss Oyella Porterfield of St. Louis was elected National Secretary-treasurer. Heretofore, this office had been held only by a man. However, due to the splendid training that the incumbent had, having served as assistant to the late Secy-treas., Mr. Cantrell, and other positions in the Order, there is no doubt as to her success in this new venture.

The national choir of Chicago, under the leadership of Mrs. Elora Clayton, pianist brought a message of good will, in the many songs which they sang.

Meritorious Service
Much credit must be given to Rev. T. L. Scott, the deputy Grand Master, for his manly way of presiding. It is safe to say, that had he not taken the chair things would have been in more a muddle than they were.

Indiana showed the convention that as a State, she was on the map. Indianapolis having entertained the body so royally in 1925 the delegates demanded that the next session go to either Indianapolis or St. Louis, the same will be decided by the Grand Master and his board.

Military Camp Beautiful
Camp Mathews in charge of Maj. Gen. John A. Shackleford was a beautiful sight as well as site and it was in this spacious Coliseum that company R. of Indianapolis commanded by Capt. Clarence Miller won second place for the second consecutive year holding up that age old tradition that Indiana has some of the drillings drillers that ever drilled a drill.

Thus a new page in fraternal history has been opened, written and closed.

AT THE WALKER THEATRE

John Henderson, Indianapolis' talented musical comedy artist and producer has corralled a troupe of artists and players that promises much in the way of a theatrical treat at the Walker next week, beginning Monday, Aug. 18th.

The offering, styled Dixie Brevities will include such well known stage stars as Irene and Fannie Scruggs, Dorothy Walker, Noble and Noble, Edna Gray and Evelyn Duouge.

Winter prices will prevail starting Monday.
Friday, Aug. 22nd, will be given over to a return engagement by popular request of the Black and Tan Beauties Ladies Minstrel.

Imitating a woman's voice is comparatively easy, but playing a woman on the screen is nevertheless a difficult task, according to feat in "The Unholy Three," his first talking picture, which will be shown 4 days starting Sunday.

As the sinister ventriloquist in the Metro-Goldwyn-Mayer production he hides from the police in the disguise of an old woman. "The hardest thing is to learn how to walk like a woman and keep one's shoulders from swinging, and the cultivation of the gestures, and the mannerisms of the character," says Chaney. He uses five "pieces" in the new mystery thriller, in which Lila Lee, Elliott Nugent, Harry Earles, Ivan Linow, Clarence Burton and others appear.

You are promised a hilarious time at "The Big Party," which is booked for Walker's week-end picture attraction. It has been characterized as glittering, realistic entertaining, with Sue Carol and Dixie Lee playing Stellar roles it can hardly fail to please.

SCHOOL NO. 40 OVERCROWDED RELIEF SOUGHT

By GABRIEL STANLEY
A recent investigation instituted in and around School 40 at Senate Avenue and Walnut street has revealed a state of congestion at that institution that calls for strict attention and prompt adjustment.

For instance there is class room 7 in the north basement of the school building with its fifty-four desks. And what is more objectionable is the fact that the entrance to this particular class room and that of the girls toilet are situated one directly opposite the other with no closed doors.

Wooden Stairways
The stairway leading from the basement to the first floor of the building is a wooden one.

The boiler room investigation shows it is located in its basement in the very center of the building skirted by a hallway measuring about four feet in width. This extremely narrow passageway leads the astonished visitor to the boys toilet in the south end of the building. Adjoining the latter is class room No. 8 with fifty desks. Another wooden stairway is the lone means of exit from this second class room in the basement.

Fire Hazard
The supply room of the school, with its abundance of books and papers adjoins the latter class room in the basement on the east and is under a wooden stairway leading from the hall up stairs.

It is pointed out that under ordinary circumstances, the children can not without much difficulty climb these stairways. "But" said the chervier, "it would be quite different matter in case of a fire."

Parents and guardians of pupils at the school are unanimous in their opinion that the latter state of things constitute not only a serious menace to the children's health, but a dangerous risk, the magnitude of which could only be estimated should School 40 at sometime be caught in a real blaze. In such a case, it is pointed out these children would be helplessly cut off from exit and burned like so many rats in a carefully constructed trap.

Want Protection
What parents want and of course should have is adequate protection for their children against these unnecessarily risky hazards.

School 40 is over crowded and plainly, dangerously so. The terribly congested state of things in this school is such that it has been found necessary to conduct a class of twenty-four in the hall way on the second floor of the building.

Fair-minded citizens agree with the contention advanced by parents of pupils at school 40, that their children have no business in basement class rooms. This is more so they say because basements lack what health authorities regard as essential ventilation and therefore are unfit for class room purposes.

Unequal Treatment
Parents are wondering why their children have to be taught in stuffy basements, while white pupils are housed in School buildings that are fit for human habitation. Citizens want the school authorities to discontinue the practice of herding these Negro children in basement class room at School No. 40. It is the School boards business to adjust this discrepancy in its administrative policy. Common decency demands that something be done and done now, on the matter by the board.

To do so would be to safe guard its own record and take the necessary step to protect the lives and health of helpless lower-grade children.

What is needed is a new school to accommodate the overflow of colored pupils.
